

Girls' Guide to a Great Fit

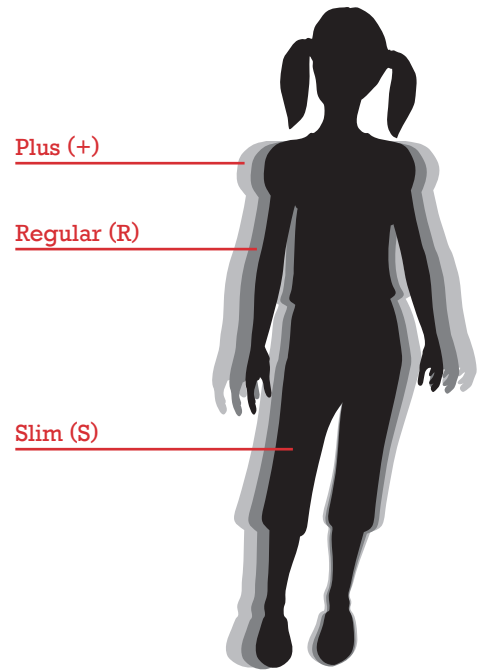

How to order the right size, first try.

1. Kids grow fast, so measure your child every time you buy.
2. Remove bulky or heavy layers.
3. Begin with height, it's the best indicator to determine a child's size.
4. After height, a child's weight and/or waist measurement is the best gauge if your child needs an extended size (slim or plus).

How do I know if my child needs an extended size?

1. If you normally buy her a size 12 to fit her waist, but the inseam is always too long, she may need a 10 Plus (10+). Here's why: a 10+ will give her extra room around her waist, yet has a shorter inseam, for a better overall fit in the waist and length.
2. If you normally buy her a size 12 to fit her waist, but the inseam is always too short, she may need a 14 Slim (14S). Here's why: a 14S is slimmer through the waist, yet has a longer inseam, for a better overall fit in waist and length.

*Be sure to compare her measurements with the size chart as she may need a different size in a slim or plus than her regular size.

REMEMBER! Start with height.

Height: Child should stand in stocking feet, with feet shoulder-width apart, back to a wall. Measure from floor to crown of head.

Waist: Measure at the natural waistline. Have child bend to the side. Where the body curves is the natural waistline.
